**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-8, 14-18, 22-29 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0028772.

There is disclosed in the European reference a beverage making machine 13 having a housing 15, 16; a funnel 22; and a blocking device, comprising: a first engager including a bracket 59b displaceably retained on the housing; a second engager 55 including a portion on the funnel for engagement with the bracket; the bracket including a first extension 59a and a second extension 59a, the first and second extensions being spaced apart and defining a gap there between which is sized and dimensioned for engagement with a portion of the funnel (second engager).

***Allowable Subject Matter***

Claim 30 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9, 10, 19, 20, 33-40, 42, 43 and 45-49 are allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Levi et al., Fisher and Perlman et al. are cited for their disclosure of the state of the art.
